WP	Description	Month	1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17	18	19	20	21	22	23	24	25	26	27	28	29	30	31	32	33	34	35	36
WP 1 UiT	**Project Management**																																					
	Preparation																																					
	Implementation																																					
	Finalization																																					
	MS: Project Website			PWS																																		
	MS: Positions filled		WP4		WP3																																	
	D: Project Report											R1									R2								R3								
	D: Final Report																																					R4
	D: Project Symposia									PS1								PS2									PS3										
	D: Final Conference UiT																																			FC		
	D: Funding application follow-up project																																					AP2
	D: Funding application final conference																										AP1										
	MS: Publishing contract project anthology																										CO										
WP 2 UiT	**Narrative, Procedural & Discursive Frames**																																				
	Preparation																																					
	MS: Redefinition of corpus		CRD																																			
	MS: Data collection																																					
	Narratological & Procedural Analysis																																					
	Discourse-Theoretical Contextualisation																																					
	Synthesis & Integration																																					
	D: Articles & Chapters											A1						A2							A3											C1		
	D: Conference Presentations									CP1								CP2						CP3				CP4							CP5		
	D. School visits				SV1										SV2										SV3										SV4		
	MS: BA course 'Integrated Game Analysis'																																	UiT				
	Finalization																																					
	D: List of open questions																																				LOQ1	
WP 3 UiT	**Measuring Attitude Change**																																					
	Preparation																																					
	MS: Pre-testing & selection of sample groups																																					
	D: Test groups										TG1-3																											
	MS: IAT method specification																																					
	MS: Development survey approach																																					
	D: Implicit association test material										ITM																											
	D: Survey scale										SS																											
	D: Method guidelines & report											R5																										
	Implementation																																					
	MS: Pre-test																																					
	MS: Test phase																																					
	D: Implicit attitude test IAT																					IAT															
	D: Survey																						SU														
	Result assessment																																					
	D: Articles & Chapters																											A4									
	D: Conference Presentations									CP6								CP7										CP8									
	D: List of open questions																											LOQ2									
WP 4 LSBU	Practical Game Design																																					
	Preparation																																					
	MS. BA student & industry contacts																																					
	MS: Planning meetings				PM1	PM2	PM3	PM4																														
	D: Game brief/design document							GB																														
	D: Prototype project plan							PPP																														
	Implementation																																					
	D: Game versions																		PT					TV1			TV2				AT			BT		RV		
	D: Game website & wiki																	GWS						GW														
	D: Conference presentations									CP9								CP10										CP11								CP12		
	D: Articles & chapters																			A5											A6					C2	
	D: Start-up design workshop					SDW																																
	D: Game design workshop																	GDW1										GDW2									
	MS: BA course 'Critical Game Design'																																	LSBU				
	Finalization																																					
	D: List of open questions																																				LOQ3
